OPAQUE BLOCKOUT POLY BANNER **“TWO” SIDE TREAT SUBSTRATE**

Stable, non-shrink film.

Reduced static film properties.

Excellent UV curing, single and multi-color.

Dual use film (Also works well with conventional and litho inks).

Excellent ink adherence (No slip contaminates in film – compare that to others banners)

Poly exceeds 48 dyne treat, allowing print process to run faster (quicker cure station to station).

Better "slide" of film over vacuum table/stacked sheets compared to other two-sided banners.

Other Crayex Benefits

STOCK ON THE FLOOR IN 39", 54", & 60". READY TO SHIP WITH YOUR ORDER.

Price competitive.

Consistency order to order.

Over 20 years of experience in supplying the banner film market.

Service, as we stand behind our product and delivery promises.

Overall quality of our product reduces customer film scrap.

Minimal edge waviness and center puckering, allowing excellent sheet laydown.

Consistent and uniform treat across entire web and throughout roll.

Can produce special sizes/gauges for large volume orders.

Cradle packaged to eliminate flat spots/indentations in rolls.
