WE'VE GOT  
YOU COVERED

# CONVERTING **AND** LAMINATION

## A SPECIAL COATING STARTS WITH YOUR SPECIAL BLEND

With over 40 years experience in precision polyethylene products, Crayex is a “go to” for all your laminating, coating, printing, and converting roll stock needs. Our state-of-the-art production facilities offer the latest technology in extrusion equipment for both monolayer and coextruded films. Using only prime grade resins, our gauge consistency and tight size tolerances will meet your highest expectations. From 5” to 126” web widths and .001”- .010” gauge thickness, Crayex can construct the right film for your specific application.

Crayex films include automatic gauge controls, large O.D. rolls (available up to 40” O.D), 3”, 4”, 5” and 6” cores, one- or two-sided treat capabilities up to 52 dynes, and an in-house Quality Control lab with the latest in film testing equipment. We have experienced, friendly, and knowledgeable Sales/Customer Service staff that work closely with Production and Quality team members to formulate your custom blend.

### A few Converting Markets we serve include:

#### Laminates to:

- ◆ Flooring
- ◆ Textile products

#### Converted to:

- ◆ Auto bags
- ◆ Wicket bags

#### Coatings:

- ◆ Adhesives
- ◆ Other plastics
- ◆ Sprays
- ◆ Foam
- ◆ Metallizing

#### Multi-Colored Registered

#### Print Converters:

- ◆ Veggie bags
- ◆ Ice packs
- ◆ Stand up pouches
- ◆ Mailer bags
- ◆ Coin bags
- ◆ Tapes
- ◆ Label film
- ◆ Die cut shapes
- ◆ Advertising signs and banners

Attention to detail in conception, design, testing, and implementation of your product – coupled with consistency in our production practices – drives us to maintain a high level of customer satisfaction, with some of the fastest turn times in the industry. Crayex converter grade rolls are flat films with tight winds, therefore helping our customers reduce costs through gauge optimization, improved yield, reduced downtime, and better overall throughput. Our products are custom formulated to meet your needs and supported by Certificate of Compliance Documentation. Contact a Crayex team member today and let us help you formulate your unique blend.
