

## Protecting Your Brand With Our Reputation

### C&D BUNDLING/WRAPPING FILM

When it comes to a product meant to serve as an "All-Purpose" solution, look no further than our C & D Bundling & Wrapping Films. Designed to handle everything from heavier package applications to the more modest postal applications, our line of C & D products are able to meet a variety of needs.

### C & D - HS

*High Strength, High Demand*

- Highest performance for 2 roll systems
- Supported or unsupported product applications
- Heavier package applications
- Good contact clarity
- Excellent seal properties
- Down gauge opportunities
- All blends FDA approved
- Random printing options available
- Recommended for freezer applications

### C & D Postal

- USPS approved

### C & D Performance Plus

*1 Roll, High Speed Systems*

- Stiffness for multiple high speed equipment designs
- Abrasion resistant
- Offers clean cut required in flying knife & wrap applications
- Optimum at high speed conveying
- Large O.D. rolls available

### C & D Performance Standard

*2 Roll Systems*

- Supported and unsupported applications
- Best "all purpose" offering
- Effective for bullseye or total enclosure applications (singlewound or centerfold films)

### C & D Ultra Clear

*For Point of Purchase Application*

- Formulated to provide superior clarity and gloss
- Display appeal
- Suitable for bar code scanning requirements
- Cost effective alternative for some olefins (low speed applications)

### C & D FOF

*Film Over Film*

- Non-stick overwrap
- Variable COF for optimal processing and handling

### C & D Compression Series

- Stiff, non-elastic properties
