C AND D BUNDLING / WRAPPING FILM

FLEXIBLE SOLUTIONS IN FLEXIBLE PLASTIC

When it comes to a product meant to serve as an “All-Purpose” solution, look no further than our C and D Bundling and Wrapping Films. Designed to handle everything from heavier package applications to the more modest postal applications, our line of C and D products are able to meet a variety of needs.

C and D – HS

High Strength, High Demand

- ◆ Highest performance for 2 roll systems
- ◆ Supported or unsupported product applications
- ◆ Heavier package applications
- ◆ Good contact clarity
- ◆ Excellent seal properties
- ◆ Down gauge opportunities
- ◆ All blends FDA approved
- ◆ Random printing options available
- ◆ Recommended for freezer applications

C and D Postal

- ◆ USPS approved

C and D Performance Plus

1 Roll, High Speed Systems

- ◆ Stiffness for multiple high speed equipment designs
- ◆ Abrasion resistant
- ◆ Offers clean cut required in flying knife and wrap applications
- ◆ Optimum at high speed conveying
- ◆ Large O.D. rolls available

C and D Performance Standard

2 Roll Systems

- ◆ Supported and unsupported applications
- ◆ Best “all purpose” offering
- ◆ Effective for bullseye or total enclosure applications (singlewound or centerfold films)

C and D Ultra Clear

For Point of Purchase Application

- ◆ Formulated to provide superior clarity and gloss
- ◆ Display appeal
- ◆ Suitable for bar code scanning requirements
- ◆ Cost effective alternative for some olefins (low speed applications)

C and D FOF

Film Over Film

- ◆ Non-stick overwrap
- ◆ Variable COF for optimal processing and handling

C and D Compression Series

- ◆ Stiff, non-elastic properties
