C AND D SHRINK SERIES

**WE'VE GOT
YOU COVERED**

C AND D SHRINK SERIES

SUPERIOR STRENGTH. CONSISTENT PERFORMANCE. NO RELAXATION.

Available in bags, sheeting, tubing, sleeves, and more – it's not difficult to envision the versatility that our C and D Shrink Series has to offer. Our Shrink Series products are designed for superior strength and consistent performance without relaxation. From something as simple as hand shrinking a bag to operating a more sophisticated high-speed bundler, optimal load integrity is achieved.

Ecoflex

- ◆ Cost effective
- ◆ Product solution for general applications
- ◆ Tough and reliable

ExS

- ◆ High strength
- ◆ Exhibits stiffness for enhanced machinability
- ◆ Minimizes abrasion
- ◆ Superior shrink characteristics

Performance

- ◆ Cost reduction through downgauging
- ◆ Good optics
- ◆ Ultimate strength and flexibility for high demand shrink applications

Clearview

- ◆ Low haze and high gloss
- ◆ Excellent sparkle

FOF (Film Over Film)

- ◆ Non-stick
- ◆ Stiffness for high demand applications

Crayex promises consistency and reliability from the first run to the hundredth. We make certain that your products aren't just wrapped in plastic. They're wrapped in integrity.

Available in bags, sheeting, tubing, sleeves, and with slip differential. Random printing options available.
