CONSTRUCTION / BUILDING

**WE'VE GOT
YOU COVERED**

CONSTRUCTION / BUILDING

ROUGH, RUGGED, READY FOR THE WORKSITE

Crayex plastics are durable, knock- and scratch-resistant, and offer an almost limitless array of shape possibilities for your construction needs. Our films are designed to meet the strenuous demands for both new and existing building projects.

Our vast production capabilities allow for wide-ranging bags and sheeting to fit common and irregular pallets. Print your logo, instructions, safety warnings, and more in up to 2 colors on one or both sides of any construction product. With gauges ranging from 1 mil to 10 mil and sizes varying from 5" all the way up to 24', Crayex's quality team will formulate a custom product to meet your exact specifications.

You can get the protection and appearance that you need for these materials:

- ◆ Roofing
- ◆ Insulation
- ◆ Fencing
- ◆ Flooring
- ◆ Piping
- ◆ Drywall
- ◆ Brick, block, and cement
- ◆ Lumber

UVI and 5-sided protection provides weather resistance for outside storage for as little as 3 months to 3 years and beyond. Crayex Corporation's experienced engineering knowledge lets us formulate anything from bags, shrink and stretch hooder, to barrier and waterproofing films. Our premium resin blends are designed to battle moisture and provide ultimate protection for both external and internal requirements.

Crayex understands the demanding terrain and elements of a worksite. Protect your materials with toughness and consistency so you're ready to go when it's project time.
